

Construction Career Day 2006

July 10, 2006

Dear Interested Employer:

The Associated General Contractors, National Association of Women in Construction, Eastern Washington Apprenticeship Coordinators, Community Colleges of Spokane, Spokane Public Schools, Spokane Tribes, Office of Minority and Women Business Enterprise, WorkSource, and Washington State Department of Transportation are hosting the "Construction Career Day 2006" at the Spokane County Fair and Expo Center in Spokane, Washington, October 5-6, 2006, for all area high schools. As one of the largest industries, the construction trades are facing a severe shortage of skilled workers. If not addressed, the shortage will increase. This will affect quality, safety, and our industry's overall ability to compete in building the infrastructure needed by an ever-growing population. Our goal is to make young people aware of the tremendous opportunities ranging from entry level apprenticeship and hi-tech positions to professional opportunities that exist in the construction industry today.

We are asking for your involvement. We are strongly encouraging all exhibitors to be creative and motivating. Please provide information, products, and tools to educate, excite, and spark student's interest in the field of construction. A tent will be provided for the informational booths, but it is an open-air area, so dress comfortably and appropriately for the weather. An exhibitor registration form is enclosed with this letter. The organizing committee will help to provide such things as:

- Security of equipment brought in the night before.
- Promotional and radio advertisements.
- Display table(s) and chair(s) will be provided.
- Equipment rental and supplies.
- Lunch will be served to participant(s) and exhibitor(s).

To reserve a table, please complete the enclosed registration form and return it by August 31, 2006. If you have any questions or have any special needs, please call Deb Crapes at (509) 354-6451 or Kevin Managhan at (509) 543-0922. A confirmation letter will be sent to you along with information about set-up time and the program agenda. Also note that *if you are not* the correct person to whom this should be addressed, please forward it to the appropriate representative. Thank you very much and we look forward to seeing you on October 5-6, 2006.

Sincerely,

Wayne Brokaw, Executive Director
Associated General Contractors
